Subject Index

Amphotericin B, increased permeability of human erythrocytes, 341
Ampicillin, treatment for enterococcal pyelonephritis in rats, 611
Antibiotic resistance
  in *Shigella*, mediated by R factors, 477
  prevention in vitro by coumadin, 11
Antibiotics
  association with glucose-stimulated growth of *Candida albicans* in saliva, 371
  chemoprophylaxis of *Neisseria meningitidis* infections, 125
  susceptibility of *Bacillus* species, 102
Antibody, humoral, effects of Thorotrast on production, 297
Antibody response in bacteriuria, renal versus bladder, 539
Antigens
  of *Trypanosoma lewisi*, serologic characterization, 544
  variola-specific, recovery from infected cell cultures, 399
Antimicrobic, usage of word, 225
Antiviral activity of bis-DEAE-fluorenone, and stimulation of interferon production in mice, 190
Arbovirus, identification with electron microscope, 551
Arthritic lesions, localization of Group A streptococci and particles of titanium dioxide, 292
Arthritis, role of mycoplasmas, 313
Aspergillus nidulans, alkaline phosphatase mutations and decreased virulence, 305
Australia antigen, *see* hepatitis-associated antigen
Bacillus Calmette-Guerin, viable vaccine compared to mycobacterial cell wall-vaccine in monkeys, 527
Bacillus species, antibiotic susceptibility, 102
Bacteria
  defective cell walls, 433
  intracellular, role in resistance to *Cryptococcus*, 22
  see also names of genera and species
Bacterial overgrowth, prevention, 1, 678
Bacteriuria, renal versus bladder, serologic response, 539
Bis-DEAE-fluorenone, antiviral protection and interferon production in mice, 190
Brucella melitensis, immune response to, 507, 595
Calcium, effect on inhibitors of hemagglutination of rubella virus, 421
Candida albicans, growth in saliva, stimulation by glucose, 371
Cattle, hoof-and-mouth disease, transmission by contact, 386
Cell walls
  defective, bacterial variants, 433
  of *Mycobacterium bovis*, as vaccine against tuberculosis in monkeys, 527
Chemoprophylaxis, antimeningococcic, 125
Chlamydia
  counting of particles by negative staining with Congo red, 429
  intestinal infections leading to polyarthritis, in calves, 41
Cholera
  concentration of magnesium in plasma and feces, 655
  levels of immunoglobulin compared with noncholeraic diarrhea, 579
  reinfection in man, 61
Cholera-like disease, due to enterotoxigenic *Escherichia coli*, 378
Chromobacterium violaceum, pathogenic for man, 226
Colistin, synergism and antagonism with serum, 392
Coumadin, use in prevention of antibiotic resistance in vitro in *Staphylococcus aureus*, *Escherichia coli*, and *Pseudomonas aeruginosa*, 11
Cryptococcus, resistance to, conferred by intracellular bacteria and protozoa, 22
Cytomegalovirus
  and hepatitis, 406
  congenital infection, 555
Electron microscope, in identification of arbovirus, 551
Encephalitis, St. Louis virus
  effect of age on disease, 316
  in mice treated with Thorotrast, 297
Endocarditis, bacterial, valve replacement, 106
Endotoxins
  and bacterial virulence, 317
  in periodontal disease, 676
Enterococcal pyelonephritis, antibiotic therapy in rats, 611
Enterotoxin, of *Pseudomonas aeruginosa*, 97
Epidemiology
  acute respiratory infections, at Yale University, 271
  infectious mononucleosis, at Yale University, 263
  rubella, at Yale University, 271
  of viral hepatitis, in Eastern Europe, 200
Epstein-Barr virus, and hepatitis, 406
Erythrocytes, human, increased permeability induced by amphotericin B, 341
Erythromycin, activity against atypical mycobacteria in vitro, 216
Escherichia coli
  bacteriuria, serologic response, 539
  enterotoxigenic, from patients with cholera-like disease, 378
  prevention of antibiotic resistance in vitro, by coumadin, 11
  R factor, and sulfonamide resistance, 158
Foot-and-mouth disease, contact transmission, in cattle, 386
Footpad response, mouse strain, susceptibility to LCM virus, 134
Gastroenteritis, nonbacterial, transmission to volunteers by stool filtrates, 307
Gentamicin, urinary excretion, neonatal, 257
Globulins, serum, macrophage stimulation and *Brucella* inhibition, 507, 595
Glucose, stimulation of growth of *Candida albicans* in saliva, 371
Gonorrhea, status and trends in the United States, 682
Hemagglutination

XUM

passive, technique, for measurement of antibodies to variola virus, 485
test for syphilis, antibodies to *Treponema pallidum*, 668
Hemolysin, purified from *Vibrio parahaemolyticus*, 000
Hemophilia patients, antibodies to hepatitis-associated antigen, 279
Hepatitis-associated antigen
antibodies in hemophiliacs, 279
antibody response, 356
heterogeneity, 618, 671
immune complexes, 251
in chimpanzees, 660
lipid and protein, 470
seroepidemiologic studies, 406
Hepatitis
infectious, epidemiology, 200
infectious, mitogenic factor, 213
serum, epidemiology, 200
Herpes-like virus
in guinea pigs and mice, 284
(Hsiung-Kaplow), of guinea pigs, isolation and characterization, 178
Herpesvirus hominis, types 1 and 2, biologic markers, 169
5-Hydroxytryptamine, release by platelets, induced by streptococcal mucopeptide, 587
Immunity
cellular, 439
cellular, to *Brucella melitensis* Rev I vaccine, 595
in smallpox, measurement of antibodies by passive hemagglutination, 485
Immunization, recommendations
influenza, 446
rabies, 227
Immunoglobulin, levels in patients with cholera or noncholeraic diarrhea, 579
Infection
intracellular, resistance to, 439
of calves' intestines, with chlamydia, cause of polyarthritis, 41
with *Vibrio fetus*, in fetal calf, 32
Infectious diseases, and social change, 110
Infectious Diseases Society of America
Bristol award, 243
minutes of meetings, 335, 338
officers and council, 1970–1971, 242
Squibb award, 115
Inflammation, in periodontal disease, 676
Influenza
recommendations for immunization, 446
virus, temperature-sensitive mutants, 145
Influenza, A_2/Hong Kong/68
epidemic among Yale freshmen, 271
epizootic in gibbons, 365
Inhibitors, of rubella hemagglutination, effect of calcium concentration, 421
Interferon
effect of Thorotrast on production, 297
production enhanced by mineral oil, leukocytes, 351
stimulation of, and antiviral protection in mice, with bis-DEAE-fluorenone, 190
Intestine, calves' chlamydial infection, cause of polyarthritis, 41
Journal of Infectious Diseases, format, 108
Leptospirosis, canine, in Cairo, 548
Leucogenenol, action on leukocytes in bone marrow, spleen, and peripheral blood of rat, autoradiography, 117
Leukocytes, effects of leucogenenol, autoradiography, 117
Listeriosis, human, in the United States, 247, 328
Lymphocytic choriomeningitis
pathogenesis, affected by murine and viral strains, footpad response, 134
persistent infection in adult mice, 603
Magnesium, concentration in plasma and feces of patients with cholera, 655
Malaria, experimental, effects on the immune response to different antigens, 99
Meningococcal infection
and viral infections, 519
chemoprophylaxis, 125
seroepidemiologic studies with indirect hemagglutination test, 519
Meningococci, *see Neisseria meningitidis*
Mineral oil, enhancement of interferon production by leukocytes, 351
Mitogenic factor, in infectious hepatitis, 213
Mononucleosis, infectious, at Yale University, 263
Morphogenesis, of arbovirus, 551
Mouth, incidence, species, and significance of mycoplasma, 16
Mutants, temperature-sensitive, of influenza virus, 145
Mutations, alkaline phosphatase, in *Aspergillus nidulans*, 305
Mycobacteria
atypical, inhibited by erythromycin in vitro, 216
cell-wall vaccine against tuberculosis in monkeys, 527
Mycobacterium intracellulare, in the opossum, 569
Mycobacterium tuberculosis, cell walls, 562
Mycoplasmas
in the mouth, incidence, species, and significance, 16
role in arthritis, 313
Mycoplasma pneumoniae, disease, clinical spectrum, pathophysiology, epidemiology, and control, 74
National Institutes of Health, news, 241, 455, 566, 567
Neisseria meningitidis
carriage in a population of normal families, 67
inhibition by various drugs, 125
resistance to rifampin, 414
sero-epidemiologic studies of infection with indirect hemagglutination test, 519
Opossum, fatally infected with *Mycobacterium intracellulare*, 569
Penicillin
prevention of bacterial overgrowth, 1, 678
treatment for enterococcal pyelonephritis in rats, 611
Periodontal disease, inflammation and endotoxin, 676
Permeability, of erythrocytes, increased by amphotericin B, 341

Phagocytic activity, evaluation by ingestion of labeled bacteria, 93
Pharyngitis, streptococcal, differentiation of infection from carriage, 490
Phospholipids, role in schistosome granulomas, 629
Pneumonia, due to *Mycoplasma pneumoniae*, 74
Polyarthritis, in calves, result of intestinal chlamydial infections, 41
Polyriboinosinic-polyribocytidylic acid, in prophylaxis of experimental rabies, 426
Precipitin response, to rubella vaccine RA 27/3, 220
Prevention
  of influenza, 446
  of rabies, in man, 227
  of rabies with poly I:C, in rabbits, 426
Pseudomonas aeruginosa
  enterotoxin, 97
  prevention of antibiotic resistance in vitro by coumadin, 11
Pyelonephritis, enterococcal, antibiotic therapy in rats, 611
Q fever, in hospital environment, 301
R factors
  and antibiotic resistance in *Shigella*, 477
  and sulfonamide resistance, in *Escherichia coli*, 158
Rabies,
  human, recommendations for immunization, 227
  in raccoons, 680
  prophylaxis with poly I:C, 426
Raccoons, rabies in, 680
Resistance, to *Cryptococcus*, conferred by intracellular bacteria and protozoa, 22
Respiratory infections,
  acute, in Yale University freshmen, 271
  due to *Mycoplasma pneumoniae*, 74
Reticuloendothelial system, function,
  in normal, leukemic, and immunosuppressed humans, 457, 465
  phagocytosis and catabolism of test colloid, 457, 465
Rifampin, resistance, in meningococci, 414
Rubella
  hemagglutination inhibitors, effect of calcium concentration, 421
  in Yale University freshmen, 271
  prevention, 640
  vaccination, 220, 224, 640
  vaccine, RA 27/3, and precipitin responses, 220
Salmonella
  carriage in respiratory tract of mice, 502
  endotoxins, and virulence, 317
  surveillance, United States, 332
Schistosoma mansoni, granulomas, role of phospholipids, 629
Serum, synergism and antagonism, with colistin, 392
Shigella flexneri, antibiotic resistance, mediated by R factors, 477
Shigella sonnei, antibiotic resistance mediated by R factors, 477
Smallpox, immunity and variola virus
  hemagglutination technique, 485
  recovery of soluble antigens from infected cell cultures, 399
Staining, negative, of chlamydia, with Congo red, 429
Staphylococcus aureus, prevention of antibiotic resistance in vitro by coumadin, 11
St. Louis encephalitis virus
  effect of age on disease, 316
  infection, and Thorotrast, 297
Streptococcal infection, differentiation from carriage, 490
Streptococcal mucopeptide, release of 5-hydroxytryptamine by platelets, 587
Streptococci
  alpha, role in prevention of bacterial overgrowth, 1, 678
  Group A, in arthritic lesions of rabbits, 292
Streptococcus viridans, role in prevention of bacterial overgrowth, 1, 678
Streptomycin, treatment for enterococcal pyelonephritis in rats, 611
Sulfonamide resistance, role of R factor in *Escherichia coli*, 158
Synergism and antagonism, serum and antibacterial activity of colistin, 392
Syphilis, test, with hemagglutinating antibodies to *Treponema pallidum*, 668
Temperature-sensitive mutants, of influenza virus, 145
Tetanolysin, effects in animals, 51
Thorotrast, effect on humoral antibody, viral multiplication, and interferon during infection with St. Louis encephalitis virus, in mice, 297
Transfusion-associated hepatitis, 406
Transmission of hoof-and-mouth disease, by contact, in cattle, 386
Treponema pallidum, use in hemagglutination test for syphilis, 668
Trypanosoma lewisi, serologic characterization of somatic antigens, 544
Tuberculosis, vaccine, 527, 562
Vaccination
  influenza, 446
  rabies, 227
  rubella, 220, 224, 640
  tuberculosis, 527, 562
Variola virus, and immunity in smallpox, 399, 485
Vibrio fetus, infection in immunologically immature fetal calf, 32
Vibrio parahaemolyticus, hemolysin, purification of, 665
Virus, *see* names of specific viruses

PUBLISHED JANUARY, FEBRUARY, MARCH, APRIL, MAY, JUNE

Printed in U.S.A.

The Journal of Infectious Diseases • Contents of Volume 123

Volume 123 • *January 1971* • *Number 1*

Original Articles

Prevention of Bacterial Overgrowth. KATHERINE SPRUNT, GRACE A. LEIDY, and WINIFRED REDMAN 1

Prevention of Antibiotic Resistance in Vitro in *Staphylococcus aureus, Escherichia coli,* and *Pseudomonas aeruginosa* by Coumadin. SAMUEL J. DE COURCY, JR., MADELYN M. BARR, WILLIAM S. BLAKEMORE, and STUART MUDD 11

Incidence, Species, and Significance of *Mycoplasma* Species in the Mouth. KATSUO KUMAGAI, TAKESUKE IWABUCHI, YORIO HINUMA, KYOKO YURI, and NAKAO ISHIDA 16

Resistance against *Cryptococcus* Conferred by Intracellular Bacteria and Protozoa. LAYNE O. GENTRY and JACK S. REMINGTON 22

Infection with *Vibrio fetus* in the Immunologically Immature Fetal Calf. B. I. OSBURN and R. K. HOSKINS 32

Pathogenetic Events in Intestinal Chlamydial Infections Leading to Polyarthritis in Calves. A. K. EUGSTER and J. STORZ 41

Tetanolysin: In-Vivo Effects in Animals. M. CAROLYN HARDEGREE, AMOS E. PALMER, and NORMA DUFFIN 51

Cholera Reinfection in Man. WILLIAM WOODWARD 61

XUM

Subject Index

Adenovirus vaccine, live type 7
  antibody and protection in man, 155
  safety, infectivity, antigenicity, and potency in man, 148
American Indians, intensified reactions to measles vaccine, 306
Ampicillin, levels in bile, S106
Anaerobic bacteria, gram-negative, sensitivity to aminoglycosides, S56
Antibiotics
  for pseudomonas sepsis, 104
  therapy of streptococcal pharyngitis and pyoderma, effect on risk of glomerulonephritis, 229
Antibodies
  streptococcal, in pyodermal nephritis, 488
  to staphylococcal enterotoxin B, in man and monkey, 206
Antibody
  precipitating, production with pepsin-treated hepatitis-associated antigen, 411
  response, to *B. abortus* in guinea pigs, 47
  to early antigens induced by Epstein-Barr virus in infectious mononucleosis, 58
Antimicrobial Agents and Chemotherapy, new journal, 437
Antisera
  to Groups A and C streptococci, enhancement of potency, 387
  to hepatitis-associated antigen, preparation by use of immune tolerance to serum proteins, 517
Ascorbic acid, effect on bactericidal mechanisms of neutrophils, 194
Bacillemia, *see* Bacteremia
Bacteria
  from blood cultures, identification in 4 hr, 499
  gram-negative, resistance to gentamicin, S264
  in urinary tract, effect of water diuresis, 297
  killing by neutrophils, effect of ascorbic acid, 194
  see also names of genera and species
Bacteremia
  pseudomonas, failure of treatment with gentamicin, S185
  therapy with gentamicin, S164
Bacteremia, due to gram-negative bacteria, 239
  therapy with gentamicin or polymyxin B and kanamycin, S156
Bacteriocin typing, epidemic strain of *N. meningitidis*, 26
Bacteroides, bacteremia, 239
Besnoitia jellisoni, and *T. gondii*, chronic infection and resistance to murine tumors, 587
Bile, levels of gentamicin and ampicillin, S106
Blood
  coagulation, in epizootic hemorrhagic disease, deer, 217
  cultures, identification of bacteria in 4 hr, 499
Botulism, diagnosis and treatment, 108
Brucella, in beagles, epidemic brucellosis, 615
Brucella abortus, in guinea pigs, delayed hypersensitivity, antibody response, immunity, 47
Bubonic plague
  epidemic in United States, 1969–1970, 367
  in dogs and cats, 522, 527
Burns
  colonization with gentamicin-resistant *P. aeruginosa*, S18
  septicemia, treatment with gentamicin, S275
  topical and systemic gentamicin, S278
Calcium
  effect on in-vitro sensitivity to gentamicin, S37
  inhibition of activity of colistin against *P. aeruginosa*, 610
Cancer patients, iv gentamicin therapy of infections, S174
Candida albicans, growth inhibition by iron-unsaturated lactoferrin, 539
Candidiasis, chronic mucotaneous, host-defense mechanisms related to inhibition of *C. albicans* by iron-unsaturated lactoferrin, 539
Carbenicillin
  synergy with gentamicin against *Pseudomonas*, S46
  used with gentamicin, S202
Cat
  nephrotoxicity of gentamicin, S125
  ototoxicity of gentamicin, S125, S138
Cephalothin, and lincomycin, levels in bone as related to osteomyelitis treatment, 565
Cholera
  antibody response in rabbit ileum, 359
  toxin, deactivation by ganglioside, 415
Clearance of gentamicin
  peritoneal, S96
  renal and plasma, S70
Colistimethate, and polymyxin, binding to tissues, and distribution and persistence in body, 394
Colistin, activity against *P. aeruginosa*, inhibition by calcium in serum, 610
Colostrum, human, antimicrobial activity in newborn, 445
Cystic fibrosis, use of gentamicin for pseudomonas infection, S293
DEAE-dextran, enhanced infection of cell cultures by trachoma agent, 419
Dialysis, peritoneal, use of gentamicin, S77, S84
Diplococcus pneumoniae, pharyngeal acquisitions in "normal" families, 9
DNA, viral, suppression of synthesis during replication of canine herpesvirus at elevated temperature, 572
Dogs, transfer of *M. canis* to humans, 607
Dosage, levels of gentamicin in blood, S90
Endocarditis, streptococcal, due to thiol-requiring mutants, 247
Endocrine diseases, and viral infections, 94
Endotoxin, *Salmonella*, tolerance in patients with bacteremia, bacteriuria, and schistosomiasis, 318
Endotoxins, bacterial, notice of conference, 437
Enterobacter, bacteremia, 239
Enterobacter hafniae, bacteriology, epidemiology, and antibiotic susceptibility, 379

Enterobacter liquefaciens, bacteriology, epidemiology, and antibiotic susceptibility, 379
Enterococci
synergy of penicillin and gentamicin against, S207
synergy of penicillin with gentamicin or streptomycin against, 581
Enterotoxin, of *V. cholerae,* effect on intestinal glucose metabolism of rabbit, 188
Enterotoxin B, staphylococcal
resistance and antibodies, man and monkey, 206
swelling of hepatic mitochondria, 372
Enterovirus, bovine, encapsidation of RNA of foot-and-mouth disease virus, 270
Epidemiology
brucellosis in beagles, 615
bubonic plague in United States, 1969–1970, 367, 522, 527
E. hafniae and *E. liquefaciens,* 379
glomerulonephritis, in Israel, 141
measles, 620
N. meningitidis, group C, 593
streptococcal infection, in two populations, 1
streptococcal pharyngitis, in the Netherlands, 339, 348
syphilis, in United States, 428
Epizootic hemorrhagic disease, blood coagulation during infection, deer, 217
Epstein-Barr virus, antigen
conversion of lymphoid cells by throat washings of patients with infectious mononucleosis, 422
early, in infectious mononucleosis, 58
Epstein-Barr virus, spectrum of primary and secondary infections, 330
Errata, 438
Escherichia coli
bacteremia, 239
K-12, sensitivity to gentamicin, S59
R-factor for gentamicin, S65
Eye, gentamicin for bacterial infection, S271
Fever, hemorrhagic, in Sweden, 107
Fever, Rocky Mountain spotted, in United States, 112
Foot-and-mouth disease
latent viral infection and transmission in cattle, 270
virus, encapsidation of RNA by bovine enterovirus, 270
Ganglioside, deactivation by cholera toxin, 415
Gastroenteritis, in children, oral gentamicin, S236
Gentamicin, Second International Symposium, S5–S300
pediatrics, S214–S263
pharmacology, S70–S113
toxicity, S114–S155
oral, for bacterial gastroenteritis in children, S236
synergism with penicillin against enterococci, 581
see also under specific topics related to gentamicin
Giardiasis, in travelers, 235
Glanders, relation to melioidosis, 598
Glomerulonephritis
acute, effect of penicillin therapy on incidence after streptococcal pharyngitis, 339, 348
epidemic, in Israel, 141
risk, and antibiotic therapy of streptococcal pharyngitis or pyoderma, 229
Glucose, metabolism in rabbit intestine, effect of *V. cholerae* enterotoxin, 188
Gonorrhea
in females, treatment with sulfamethoxazole and trimethoprim, 533
in males, treatment with gentamicin, S287
Hemorrhagic fever, in Sweden, 107
Hepatitis
infectious, MS-1, properties of virus from patients, 76
transmission from humans to marmosets, 520
Hepatitis-associated antigen
antiserum, preparation by use of immune tolerance to serum proteins, 517
pepsin treated, use in production of precipitating antibody, 411
quantitation with modified Ouchterlony precipitin test, 512
Herpesvirus, canine, replication at elevated temperature, suppressed synthesis of DNA, protein, and mature virions, 572
Host-parasite interactions, role of iron, 401
Hypersensitivity, delayed, to *B. abortus* in guinea pigs, 47
Immunity
to *B. abortus,* in guinea pigs, 47
to cholera, antibody response in rabbit ileum, 359
Immunization, live adenovirus type 7 vaccine, 148, 155
Immunocytoadherence test, in detection of immune response to *S. schenckii,* 264
Immunoglobulins
and phagocytosis of *E. coli,* 223
role of IgA in intestinal immunity, 223
synthesis and secretion by intestine of newborn rabbit, 494
transport from serum into intestine, 223
Indians, American
response to measles vaccine, 306
treatment of trachoma with tetracycline, 255
Infants
low birthweight, treatment with gentamicin, S232
use of gentamicin, S214–S263
Infections
cancer patients, gentamicin therapy, S174
chronic, with intracellular protozoa, and resistance to murine tumors, 587
complications in children with acute leukemia, iv gentamicin, S194
gram-negative bacterial, in children, gentamicin, S236
mixed and pseudomonas, supplemental antibiotics to enhance the action of gentamicin, S198
viral, and diseases of the endocrine system, 94
Infectious Diseases Society, training programs, 116, 436
Infectious mononucleosis, antibodies to early antigens induced by Epstein-Barr virus, 58
Influenza, avian, effect of interferon and interferon inducers, 545
Influenza virus, interaction with *Mycoplasma* in tracheal organ cultures, 18
Influenza-virus vaccine, recombinant
antigenicity, 463
characterization, 449

XUM

protection against experimental influenza, 473
protection against natural influenza, 481
Interferon, and interferon inducers, effect on avian influenza, 545
Iron, role in host-parasite interactions, 401
Kanamycin
and polymyxin B, therapy of gram-negative bacteremia, compared with gentamicin, S156
or gentamicin, treatment of gram-negative sepsis, S180
Klebsiella
bacteremia, 239
R-factor for gentamicin, S24
Lactoferrin, iron-unsaturated, inhibition of growth of *C. albicans*, 539
Leukemia, in children, iv gentamicin for infections, S192
Lincomycin, and cephalothin, levels in bone and osteomyelitis treatment, 565
Lymphoblastoid cells, CPE induced by arginine-requiring *Mycoplasma*, 322
Lymphocytes, virus-carrier, role in viral disease, 214
Lyophilization, of streptococci, 619
Magnesium, effect on sensitivity to gentamicin in vitro, S37
Measles
epidemiology, 620
serology, deviant, and SSPE, 439
Measles vaccine
current use in United States, 620
intensified reactions in American Indians, 306
Measles virus, neurotropism
in hamsters, 553
in hamsters and mice, 86
Melioidosis, and *P. pseudomallei*, 598
Meningitis
intrathecal gentamicin in infants, S254
neonatal, gentamicin, S249
Meningococcal carriage
effect of rifampin and minocycline, 199
eradication, rifampin-resistant strains, 172
Meningococcal infection, and polysaccharide vaccination, serology, 277
Minocycline, and rifampin, effect on meningococcal carriage, 199
Mitochondria, hepatic, swelling induced by staphylococcal enterotoxin B, 372
Monkey, squirrel, ototoxicity of gentamicin, S114
Monkeypox, in baboon, induction, course, and transmissibility, 33
Mononucleosis, infectious, filterable agent in throat washings of patients, 422
Mycobacteria, activity of gentamicin in vitro, S33
Mycobacterium tuberculosis, in mice, gentamicin, S33
Mycoplasma
interaction with influenza virus in tracheal organ cultures, 18
Mycoplasma, requirement for arginine, and CPE in lymphoblastoid cells, 322
Mycoplasma canis, colonization of humans, 607
Mycoplasma pneumoniae, *ts* mutants, response of hamsters, 179
Neisseria, workshop on current problems, 434
Neisseria gonorrhoeae, use of sulfamethoxazole and trimethoprim against, 533
Neisseria meningitidis
effect of rifampin on nasopharyngeal carriage, 39
epidemic strain, identified by bacteriocin typing, 26
Group C epidemic strain identified by bactericidal serotyping, 593
infections and polysaccharide vaccination, serology, 277
Nephritis, pyodermal, type-specific streptococcal antibodies, 488
Nephrotoxicity, of gentamicin
in cat, S125
in man, S145, S148
Neurotropism, of measles virus variants
in hamsters, 553
in hamsters and mice, 86
Neutrophils
bactericidal action, effect of ascorbic acid, 194
human, toxic, 68
Newcastle disease virus, mutants, virulence and plaque morphology, 289
Osteomyelitis, relation to antibiotic levels in bone, 565
Ototoxicity, of gentamicin
in cat S125, S138
in man, S130
in squirrel monkey, S114
Parasite, *see* specific genera and species
Pasteurella pestis, *see Yersinia pestis*
Penicillin, against enterococci
synergy with gentamicin, 581, S207
synergy with streptomycin, 581
Penicillin, therapy for streptococcal pharyngitis, and incidence of rheumatic fever and glomerulonephritis, 141, 229, 339, 348
Pharmacokinetics, of gentamicin, S70
Pharmacology, of gentamicin, S98
in infants, S214
in peritoneal dialysis, S77
Pharyngitis, streptococcal, in the Netherlands, penicillin therapy, 339, 348
Pneumonia, due to gram-negative bacilli, 425
Poliomyelitis, history of, 231, 619
Polymyxin and colistimethate, binding to tissues and distribution and persistence in the body, 394
Polymyxin B and kanamycin, compared to gentamicin, for gram-negative bacteremia, S156
Primates, monkeypox in baboons, 33
Protein, viral, suppression of synthesis during replication of canine herpesvirus at elevated temperature, 572
Proteus, bacteremia, 239
Protozoa, intracellular, and resistance to murine tumors, 587
Providence, bacteremia, 239
Pseudomonas
bacteremia, 239
failure of gentamicin therapy for bacteremia, S185
infections, gentamicin therapy in children with cystic fibrosis, S293

supplemental antibiotics to enhance effect of gentamicin, S198
synergy of carbenicillin and gentamicin, S46
Pseudomonas aeruginosa
activity of colistin inhibited by calcium, 610
antibiotic therapy for sepsis, 104
effect of Mg and Ca concentrations on susceptibility to gentamicin, S37
effect of salts on in-vitro sensitivity to gentamicin, S59
pyocine type 5, colonization in a burn unit, S18
resistance to gentamicin, S264
Pseudomonas pseudomallei
and melioidosis, a review, 598
effect of gentamicin, in vitro, S30
Psittacosis, human, in United States, 622
R factors in
E. coli, S65
gram-negative bacteria causing bacteremia, 239
Klebsiella, S24
S. dysenteriae, type 1, isolated in western hemisphere, 1969–1970, 327
S. marcesens, 559
Resistance
meningococcal, to rifampin, 172
to aminoglycosides, S11
to gentamicin, microbiologic studies, S11
Respiratory syncytial virus, *ts* mutant, in adults, 505
Rheumatic fever, effect of penicillin therapy on incidence after streptococcal pharyngitis, 339, 348
Rifampin
and minocycline, effect on meningococcal carriage, 199
effect of nasopharyngeal carriage of *N. meningitidis*, 39
eradication of meningococcal carriage in closed population, emergence of resistant strains, 172
Rocky Mountain spotted fever, in the United States, 112
Salmonella
bacteremia, 239
bacteremia and bacteriuria, endotoxin tolerance, 318
Salmonellosis, and turtles, 433
Salts, effect on in-vitro sensitivity to gentamicin, S59
Schistosoma mansoni
eggs in feces of patients with schistosomiasis. 613
infection and thyroid function, 161
thyroid and host-parasite relation in schistosomiasis, 161
Sepsis
due to *P. aeruginosa*, antibiotic therapy, 104
gram negative, therapy with gentamicin and kanamycin, S180
Septicemia, from burns, gentamicin therapy, S275
Serology of meningococcal infection and polysaccharide vaccination, 277
Serotyping, bactericidal, for identification of epidemic strain of group C *N. meningitidis*, 593
Serratia, bacteremia, 239
Serratia marcescens, with R factor for gentamicin, S59
Shigella dysenteriae, type 1, R factors in western hemisphere, 1969–1970, 327
Sporothrix schenckii, immunocytoadherence test to detect immune response, 264
Sporotrichosis, serology, immunocytoadherence test, 264
Staphylococcal enterotoxin B
and swelling of hepatic mitochondria, 372
resistance and antibodies in man and monkey, 206
Staphylococcus albus (*epidermidis*), colonization of ventriculoatrial shunt, gentamicin therapy, S257
Streptococci
epidemics in two "normal" populations, 1
Group A, type 55, epidemic glomerulonephritis in Israel, 141
group-specific antisera, factors enhancing potency, 387
pharyngitis and pyoderma, antibiotic therapy and risk of glomerulonephritis, 229, 141
persistence in endocarditis due to thiol-requiring mutants, 247
viability when lyophilized, 619
Streptomycin, synergism with penicillin against enterococci, 581
Subacute sclerosing panencephalitis, intellectual deterioration and deviant measles serology, 439
SubTenon injection of gentamicin, S271
Sulfamethoxazole, and trimethoprim, therapy for gonorrhea in women, 533
Sulfhydryl group, required by mutant streptococci causing endocarditis, 247
Synergy, against enterococci penicillin
and gentamicin, S207, 581
and streptomycin, 581
Syphilis, epidemiology in United States, 428
Temperature-sensitive mutants
M. pneumoniae, hamsters' response, 179
respiratory syncytial virus, 505
Tetracycline, treatment of trachoma in American Indians, 255
Thyroid, host-parasite relation and schistosomiasis, 161
Toxoplasma gondii
chronic infection and resistance to murine tumors, 587
isolation from feces of naturally-infected cats, 227
Trachoma agent
infection in American Indians treated with tetracycline, 255
infection of cell cultures enhanced by DEAE-dextran, 419
Training programs in infectious diseases, 114, 116, 436
Trimethoprim, and sulfamethoxazole, therapy for gonorrhea in women, 533
Tumors, murine, resistance, and chronic infection with intracellular protozoa, 587
Urethritis, gonococcal, treatment with gentamicin, S287
Urinary tract
infection, pediatric, gentamicin therapy, S234, S257
spread of bacteria, effect of water diuresis, 297
Vaccination
for measles in United States, 620
with polysaccharide of *N. meningitidis*, serology, 277
Vaccine
adenovirus type 7, in man, 148, 155

XUM

influenza virus, recombinant, 449, 463, 473, 481
measles, 306, 620
N. meningitidis, 277
Ventriculoatrial shunt, gentamicin therapy for staphylococcal infection, S257
Vibrio cholerae
effect of enterotoxin on intestinal glucose metabolism of rabbit, 188
exotoxin, deactivation by ganglioside, 415
immunity in intestine, 359
Viral infection, latent, transmission of foot-and-mouth disease in cattle, 270

Contents

Original Articles

Streptococcal Epidemics in Two Populations of "Normal" Families. PAUL R. SHEEHE and HARRY A. FELDMAN 1

Pharyngeal Pneumococcal Acquisitions in "Normal" Families: A Longitudinal Study. JOHN N. DOWLING, PAUL R. SHEEHE, and HARRY A. FELDMAN 9

The Interaction of Mycoplasmas and Influenza Viruses in Tracheal Organ Cultures. SYLVIA E. REED 18

Identification of an Epidemic Strain of *Neisseria meningitidis* by Bacteriocin Typing. GEORGE W. COUNTS, LORENE SEELEY, and HARRY N. BEATY 26

Induction, Course, and Transmissibility of Monkeypox in the Baboon (*Papio cynocephalus*). R. L. HEBERLING and S. S. KALTER 33

The Effect of Rifampin on the Nasopharyngeal Carriage of *Neisseria meningitidis* in a Military Population. WALTER E. BEAM, JR., NEIL R. NEWBERG, LEONARD F. DEVINE, WILLARD E. PIERCE, and JOHN A. DAVIES 39

Antibody Response, Delayed Hypersensitivity, and Immunity in Guinea Pigs Induced by Smooth and Rough Strains of *Brucella abortus*. LOIS M. JONES and DAVID T. BERMAN .. 47

Antibodies to Early Antigens Induced by Epstein-Barr Virus in Infectious Mononucleosis. WERNER HENLE, GERTRUDE HENLE, JAMES C. NIEDERMAN, ERKKI KLEMOLA, and KAIJA HALTIA 58

Functional Characteristics of Human Toxic Neutrophils. CHARLES E. MCCALL, JAN CAVES, ROBERT COOPER, and LARRY DECHATELET 68

Properties of a Virus Isolated from Patients with MS-1 Infectious Hepatitis. JOSEPH L. MELNICK, D. WARK BOUCHER, JOHN CRASKE, and JOSEPH BOGGS 76

Neurotropic Properties of Measles Virus in Hamsters and Mice. PAUL ALBRECHT and HEINZ P. SCHUMACHER 86

Review

Viral Infections and Diseases of the Endocrine System. NELSON L. LEVY and ABNER LOUIS NOTKINS 94

Editorial

Antibiotics for *Pseudomonas aeruginosa* Sepsis: Inadequate Proof of Efficacy. STARKEY D. DAVIS, ANTOINETTE IANNETTA, and RALPH J. WEDGWOOD 104

Correspondence

Hemorrhagic Fever in Sweden. LARS SÖDERHJELM 107

From the Center for Disease Control

Diagnosis and Treatment of Botulism. JOSEPH A. DONADIO, EUGENE J. GANGAROSA, and GERALD A. FAICH 108

Rocky Mountain Spotted Fever in the United States, 1920–1970. MICHAEL A. W. HATTWICK 112

Schedule of Laboratory Division Training Courses, Atlanta, Georgia, July, 1971–June, 1972 114

Infectious Diseases Society of America

Training Programs in Infectious Diseases. Compiled by IAN MACLEAN SMITH 116

Instructions to Authors and Use of Abbreviations

Volume 124 • *August 1971* • *Number 2*

Original Articles

Epidemic Glomerulonephritis in Israel. ELI E. LASCH, VICTORIA FRANKEL, PETER A. VARDY, SONIA BERGNER-RABINOWITZ, ITZHAK OFEK, and KURT RABINOWITZ 141

Immunization with Live Types 7 and 4 Adenovirus Vaccines. I. Safety, Infectivity, Antigenicity, and Potency of Adenovirus Type 7 Vaccine in Humans. FRANKLIN H. TOP, JR., RICHARD A. GROSSMAN, PETER J. BARTELLONI, HERBERT E. SEGAL, BURTON A. DUDDING, PHILIP K. RUSSELL, and EDWARD L. BUESCHER 148

Immunization with Live Types 7 and 4 Adenovirus Vaccines. II. Antibody Response and Protective Effect against Acute Respiratory Disease Due to Adenovirus Type 7. FRANKLIN H. TOP, JR., EDWARD L. BUESCHER, WILLIAM H. BANCROFT, and PHILIP K. RUSSELL 155

Function of the Thyroid and the Host-Parasite Relation in Murine Schistosomiasis Mansoni. M. F. ABDEL WAHAB, KENNETH S. WARREN, and RICHARD P. LEVY 161

Effectiveness of Rifampin in Eradicating the Meningococcal Carrier State in a Relatively Closed Population: Emergence of Resistant Strains. C. E. WEIDMER, T. B. DUNKEL, F. S. PETTYJOHN, C. D. SMITH, and A. LEIBOVITZ 172

Temperature-Sensitive Mutants of *Mycoplasma pneumoniae*. II. Response of Hamsters. PAUL STEINBERG, ROBERT L. HORSWOOD, HELMUT BRUNNER, and ROBERT M. CHANOCK 179

Biochemical Effects of Cholera Enterotoxin. II. Glucose Metabolism in the Intestine of the Infant Rabbit. GERALD T. KEUSCH, LOUIS WEINSTEIN, and GEORGE F. GRADY 188

The Effects of Ascorbic Acid on Bactericidal Mechanisms of Neutrophils. CHARLES E. MCCALL, LAWRENCE R. DECHATELET, M. ROBERT COOPER, and PHILIP ASHBURN 194

Effect of Rifampin and Minocycline on Meningococcal Carrier Rates. RICHARD B. GUTTLER, GEORGE W. COUNTS, C. KIRK AVENT, and HARRY N. BEATY 199

Evaluation of Resistance to Staphylococcal Enterotoxin B: Naturally Acquired Antibodies of Man and Monkey. VIRGINIA G. MCGANN, J. BRENT ROLLINS, and DOUGLAS W. MASON .. 206

Notes

A Possible Pathogenic Role for Virus-Carrier Lymphocytes. I. NÁSZ, GIZELLA KULCSÁR, P. DÁN, and KORNÉLIA SALLAY 214

Pathogenesis of Epizootic Hemorrhagic Disease. I. Blood Coagulation During Viral Infection. JOHN G. DEBBIE and MELVIN K. ABELSETH 217

Antibacterial Action of Specific IgA and Transport of IgM, IgA, and IgG from Serum into the Small Intestine. P. WERNET, H. BREU, J. KNOP and D. ROWLEY 223

Isolation of *Toxoplasma gondii* from the Feces of Naturally Infected Cats. GORDON D. WALLACE 227

Editorials

Does Antimicrobial Therapy of Streptococcal Pharyngitis or Pyoderma Alter the Risk of Glomerulonephritis? LOUIS WEINSTEIN and JACK LE FROCK 229

Flexner and Noguchi's Globoid Red Herrings: A Footnote to the History of Poliomyelitis. HAROLD K. FABER 231

From the Center for Disease Control

Giardiasis in Travelers. PETER D. WALZER, MARTIN S. WOLFE, and MYRON G. SCHULTZ 235

Instructions to Authors and Use of Abbreviations

Volume 124 • *September 1971* • *Number 3*

Original Articles

Recent Experience with Bacillemia Due to Gram-Negative Organisms. RICHARD L. MYEROWITZ, ANTONE A. MEDEIROS, and THOMAS F. O'BRIEN 239

Bacterial Persistence in Streptococcal Endocarditis Due to Thiol-Requiring Mutants. PHILIPPE CAYEUX, JACQUES F. ACAR, and Y. A. CHABBERT 247

Tetracyclines in the Treatment of Chronic Trachoma in American Indians. CHANDLER R. DAWSON, H. BRUCE OSTLER, LAVELLE HANNA, ISAO HOSHIWARA, and ERNEST JAWETZ 255

A Study of the Immunocytoadherence Test in the Serology of Experimental Sporotrichosis. GLENN D. ROBERTS and HOWARD W. LARSH 264

Latent Viral Infection in Transmission of Foot-and-Mouth Disease by Contact between Infected and Susceptible Cattle. JOHN H. GRAVES, JOHN W. MCVICAR, PAUL SUTMOLLER, RODES TRAUTMAN, and GERALD G. WAGNER 270

Serologic Studies of Meningococcal Infection and Polysaccharide Vaccination. MALCOLM S. ARTENSTEIN, BRENDA L. BRANDT, EDMUND C. TRAMONT, WILLIAM C. BRANCHE, JR., HAZEL D. FLEET, and RICHARD L. COHEN 277

Virulence and In-Vitro Characteristics of Four Mutants of Newcastle Disease Virus. G. M. SCHLOER and R. P. HANSON 289

The Effect of Water Diuresis on Spread of Bacteria through the Urinary Tract. DONALD KAYE 297

Review

Intensified Reactions to Measles Vaccine in Unexposed Populations of American Indians. F. L. BLACK, W. HIERHOLZER, J. P. WOODALL, and F. PINHIERO 306

Notes

Endotoxin Tolerance in Patients with Chronic Bacteremia and Bacteriuria Due to *Salmonella*. J. STAUFFER LEHMAN, JR., and SAMIR BASSILY 318

Susceptibility of Human Lymphoblastoid Cell Lines to a Cytopathic Effect Induced by an Arginine-Utilizing Mycoplasma Strain. GEORGE MILLER, JEAN EMMONS, and DAPHNE STITT 322

R Factors in Strains of *Shigella dysenteriae* Type 1 Isolated in the Western Hemisphere during 1969–1970. W. EDMUND FARRAR, JR., and MARGENE EIDSON 327

Editorial

The Spectrum of Infections with Epstein-Barr Virus: A Hypothesis. ALFRED S. EVANS 330

Infectious Diseases Society of America—News

Annual Meeting, October 18 and 19, 1971—Program 338

Notices 338

Instructions to Authors and Use of Abbreviations

XUM

Volume 124 • *October 1971* • *Number 4*

Original Articles

Streptococcal Pharyngitis in the General Population. I. A Controlled Study of Streptococcal Pharyngitis and its Complications in the Netherlands. M. J. HAVERKORN, H. A. VALKENBURG, and W. R. O. GOSLINGS 339

Streptococcal Pharyngitis in the General Population. II. The Attack Rate of Rheumatic Fever and Acute Glomerulonephritis in Patients Not Treated with Penicillin. H. A. VALKENBURG, M. J. HAVERKORN, W. R. O. GOSLINGS, J. C. LORRIER, C. E. DE MOOR, and W. R. MAXTED 348

Immunity to Cholera: Antibody Response in the Lower Ileum of the Rabbit. JASBIR KAUR, WILLIAM BURROWS, and MARY ANN FURLONG 359

Clinical Features of Plague in the United States: The 1969–1970 Epidemic. DARWIN L. PALMER, ALEXANDER L. KISCH, RALPH C. WILLIAMS, JR., and WILLIAM P. REED 367

Swelling of Mitochondria from Rabbit Liver Induced by Staphylococcal Enterotoxin B. PETER G. CANONICO and MATTHEW J. VAN ZWIETEN 372

Bacteriologic and Epidemiologic Characteristics of *Enterobacter hafniae* and *Enterobacter liquefaciens*. JOHN A. WASHINGTON II, ROBERT J. BIRK, and ROY E. RITTS, JR. 379

Factors that Enhance the Potency of Streptococcal Group-Specific Antisera. JAY J. GREENBLATT, KLAUS EICHMANN, DIETMAR BRAUN, and RICHARD M. KRAUSE 387

Binding of Polymyxin Antibiotics to Tissues: The Major Determinant of Distribution and Persistence in the Body. CALVIN M. KUNIN and ANN BUGG 394

Review

Roles of Iron in Host-Parasite Interactions. EUGENE D. WEINBERG 401

Notes

Use of Pepsin-Treated Hepatitis-Associated Antigen in the Production of Precipitating Antibody. CHUNG YONG KIM, JOSEPH SPANO, and GEOFFREY E. CLARK 411

Deactivation of Cholera Toxin by Ganglioside. WILLIAM E. VAN HEYNINGEN, CHARLES C. J. CARPENTER, NATHANIEL F. PIERCE, and WILLIAM B. GREENOUGH III 415

Infection of Cell Cultures by Trachoma Agent: Enhancement by DEAE-Dextran. TERESA R. ROTA and ROGER L. NICHOLS 419

A Filtrable Agent in Throat Washings of Patients with Infectious Mononucleosis. H. DEAN GOLDEN, R. SHIHMAN CHANG, JEFFREY J. LOU, and THOMAS Y. COOPER 422

Editorial

Gram-Negative Bacillary Pneumonia. A. MARTIN LERNER and MICHAEL J. FEDERMAN .. 425

From the Center for Disease Control

Status and Control of Syphilis in the United States. WILLIAM J. BROWN 428

Salmonellosis Associated with Turtles. MATTHEW S. LOEWENSTEIN, STEVEN H. LAMM, EUGENE J. GANGAROSA, and HERBERT W. ANDERSON 433

From the National Institutes of Health

Workshop on Biology of *Neisseria*. RICHARD M. KRAUSE 434

Infectious Diseases Society of America

Addendum to the List of Training Programs in Infectious Diseases 436

From the American Society for Microbiology

New Journal To Be Published. GLADYS L. HOBBY 437

Notice

Conference on Bacterial Endotoxins 437

Errata

(Hattwick, M. A. W., 124:112–113) 438

(Steinberg, P., et al., 124:179–187) 438

Instructions to Authors and Use of Abbreviations

Original Articles

Subacute Sclerosing Panencephalitis: Preceding Intellectual Deterioration and Deviant Measles Serology. O. PETTAY, M. DONNER, H. HALONEN, T. PALOSUO, and A. SALMI 439

The Antimicrobial Activity of Human Colostral Antibody in the Newborn. J. GABRIEL MICHAEL, RAYMOND RINGENBACK, and SUSAN HOTTENSTEIN 445

Correlated Studies of a Recombinant Influenza-Virus Vaccine. I. Derivation and Characterization of Virus and Vaccine. EDWIN D. KILBOURNE, JEROME L. SCHULMAN, GEOFFREY C. SCHILD, GERTRUDE SCHLOER, JOHN SWANSON, and DORIS BUCHER 449

Correlated Studies of a Recombinant Influenza-Virus Vaccine. II. Definition of Antigenicity in Experimental Animals. JEROME L. SCHULMAN and EDWIN D. KILBOURNE 463

Correlated Studies of a Recombinant Influenza-Virus Vaccine. III. Protection against Experimental Influenza in Man. ROBERT B. COUCH, R. GORDON DOUGLAS, JR., DAVID S. FEDSON, and JULIUS A. KASEL 473

Correlated Studies of a Recombinant Influenza-Virus Vaccine. IV. Protection against Naturally Occurring Influenza in Military Trainees. ALBERT LEIBOVITZ, RAYMOND L. COULTRIP, EDWIN D. KILBOURNE, LLEWELLYN J. LEGTERS, CREED D. SMITH, JAMES CHIN, and JEROME L. SCHULMAN 481

Type-Specific Streptococcal Antibodies in Pyodermal Nephritis. SONIA BERGNER-RABINOWITZ, ITZHAK OFEK, MICHAEL A. DAVIES, and KURT RABINOWITZ 488

Synthesis and Secretion of Local Immunoglobulin by the Intestinal Tract of Newborn Rabbits. JAMES W. SMITH, W. LEE HAND, and JAY P. SANFORD 494

Presumptive Identification of Bacteria from Blood Cultures in Four Hours. BENEDICT L. WASILAUSKAS and PAUL D. ELLNER 499

Evaluation of a Temperature-Sensitive Mutant of Respiratory Syncytial Virus in Adults. PETER F. WRIGHT, JOHN MILLS V, and ROBERT M. CHANOCK 505

Notes

Quantitation of Hepatitis-Associated Antigen with a Modified Ouchterlony Precipitin Test. CHUNG YONG KIM and JEREMIAH G. TILLES 512

A Simple Procedure for Preparation of Antiserum to Hepatitis-Associated Antigen by Use of Immune Tolerance to Serum Proteins. KAZIMIERZ MADALIŃSKI, K. KRAWCZYŃSKI, AGATA SZTACHELSKA, HANNA SWIDERSKA, and L. DOBRZYŃSKI 517

Transmission of Human Hepatitis to Marmosets: Further Coded Studies. A. W. HOLMES, LAUREN WOLFE, FRIEDRICH DEINHARDT, and MARCEL E. CONRAD 520

The Role of Domestic Animals in the Epidemiology of Plague. I. Experimental Infection of Dogs and Cats. JAMES H. RUST, JR., DAN C. CAVANAUGH, ROY O'SHITA, and JOHN D. MARSHALL, JR. 522

The Role of Domestic Animals in the Epidemiology of Plague. II. Antibody to *Yersinia pestis* in Sera of Dogs and Cats. JAMES H. RUST, JR., BRYAN E. MILLER, M. BAHMANYAR, JOHN D. MARSHALL, JR., SITHIBUN PURNAVEJA, DAN C. CAVANAUGH, and U SAW TIN HLA 527

Original Articles

Gonorrhea in Women: Treatment with Sulfamethoxazole and Trimethoprim. C. B. S. SCHOFIELD, G. MASTERTON, M. MOFFETT, and M. I. MCGILL 533

Inhibition of Growth of *Candida albicans* by Iron-Unsaturated Lactoferrin: Relation to Host-Defense Mechanisms in Chronic Mucocutaneous Candidiasis. CHARLES H. KIRKPATRICK, IRA GREEN, ROBERT R. RICH, and ARTHUR L. SCHADE 539

The Effect of Interferon and Interferon Inducers on Avian Influenza. JOSEPH PORTNOY and THOMAS C. MERIGAN 545

Neurotropism of Measles Virus Variants in Hamsters. ZDENEK JANDA, ERLING NORRBY, and HALYNA MARUSYK 553

Experimental Osteomyelitis. II. Therapeutic Trials and Measurement of Antibiotic Levels in Bone. CARL W. NORDEN, with the technical assistance of ELIZABETH KENNEDY 565

Suppressed Synthesis of Viral DNA, Protein, and Mature Virions during Replication of Canine Herpesvirus at Elevated Temperature. GEORGE LUST and LELAND E. CARMICHAEL 572

Penicillin Combined with Gentamicin or Streptomycin: Synergism against Enterococci. CHATRCHAI WATANAKUNAKORN 581

Resistance to Murine Tumors Conferred by Chronic Infection with Intracellular Protozoa, *Toxoplasma gondii* and *Besnoitia jellisoni*. JOHN B. HIBBS, JR., LEWIS H. LAMBERT, JR., and JACK S. REMINGTON 587

Identification of an Epidemic Strain of Group C *Neisseria meningitidis* by Bactericidal Serotyping. RONALD GOLD, JEFFREY L. WINKLEHAKE, RONALD S. MARS, and MALCOLM S. ARTENSTEIN 593

Review

The Pseudomallei Group: A Review. CALDERON HOWE, ANGUS SAMPATH, and MURRAY SPOTNITZ 598

Notes

Colonization of Humans by *Mycoplasma canis*. DONALD ARMSTRONG, BESSIE H. YU, ALAN YAGODA, and MARTIN F. KAGNOFF 607

Activity of Colistin against *Pseudomonas aeruginosa:* Inhibition by Calcium. STARKEY D. DAVIS, ANTOINETTE IANNETTA, and RALPH J. WEDGWOOD 610

Random Distribution of Schistosome Eggs in the Feces of Patients with Schistosomiasis Mansoni. LILIAN WOODSTOCK, JOSEPH A. COOK, PIERRE A. PETERS, and KENNETH S. WARREN 613

Editorial

Epidemic Brucellosis in Beagles. WENDELL H. HALL 615

Correspondence

Globoid Red Herrings. DOROTHY M. HORSTMANN 619

Viability of Lyophilized Streptococci. C. V. SEASTONE 619

From the Center for Disease Control

Current Status of Measles in the United States. PHILIP J. LANDRIGAN and J. LYLE CONRAD 620

Human Psittacosis in the United States—1970. REYNOLDSON B. ZEHMER 622
